Management

Information Systems provides comprehensive and integrative coverage of essential new technologies, information system applications, and their impact on business models and managerial decision-making in an exciting and interactive manner. The twelfth edition focuses on the

major changes that have been made in information technology over the past two years, and includes new opening, closing, and Interactive Session cases.

Revised edition of the authors' Management information systems, [2016]

An in-depth look at how

today's businesses use information technologies. Many businesses look for candidates who know how to use information systems, making a general understanding of information systems an asset to any business professional. Laudon and Laudon continue to emphasize how business objectives shape the

application of new

information systems and
technologies.
