"This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria."—Edward B. Garside, New York Times Book Review Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. "To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written."—Leonard Cottrell, Book Week "Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research."—Samuel Noah Kramer, Archaeology A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the Assyrian Dictionary of the Oriental Institute and John A. Wilson Professor of Oriental Studies at the University of Chicago.

This novel by C.S. Hagen is both an unexpected love story in a time and place of great violence and prejudice and a stirring tale of a man running from his past who challenges the British opium monopoly in China known as the Combination. Saltwater Girl is set during the Boxer Rebellion (1900) - an anti-imperialist struggle waged by North China's commoners clinging to ancient mystic beliefs against a decadent Qing Dynasty and foreign aggression. Set in colorful strokes against a broad historical canvas including the Western nations vying for China's treasures, one man - James Innocent - disguised as a Lutheran reverend and AWOL from the US First Marine Corps, delves deeply into the opium trade in an attempt to destroy the Combination's powerful consortium. From inside the port city Tientsin (Tianjin) where foreigners and Celestials (locals) are divided into two parts, two wars emerge - the war against opium and the war against aggression. The Reverend not only finds his own life in danger, but struggles against falling for a Saltwater Girl - a river prostitute - who he believes may be his only friend. Filled with sensual imagery amidst breathtaking devastation and beauty, the Saltwater Girl is a rare look into colonial and Chinese history, the clash of cultures and the ravages the opium trade brought to the Asian masses.
