This book is a densely packed, extremely fair, and very thorough economic history of China. It deals heavily with money, coinage, finance, fiscal policies, and government management of the economy. It is somewhat less thorough on production and trade; other books cover those subjects.

~~The-Economic-History-of-China:From-Antiquity-to-the-...~~

The economic history of China describes the changes and developments in China's economy from the founding of the People's Republic of China (PRC) in 1949 to the present day. China has been the fastest growing economy in the world since the 1980s, with an average annual growth rate of 10% from 1978 to 2005, based on government statistics.

The economic expansion of the 18th century brought rising demand for silver and copper. Although domestic production of copper increased, silver was primarily obtained from abroad. After 1684 the net balance of trade was consistently in China's favour, and silver flowed into the Chinese economy.

~~China - Economic development | Britannica~~

Officially the People's Republic of China, the country had an estimated nominal GDP of \$13.457 trillion in 2018, while PPP in that same year stood at approximately \$25.313 trillion. China operates as a socialist market economy, which is characterized by state-owned enterprises and public ownership within a market economy.

~~What Kind of Economy Does China Have? - WorldAtlas~~

One of the major changes of 1978 was China's sharp turn toward participation in the international economy. While in the 1970s there had been a resumption of the foreign trade that had been largely halted in the late 1960s, along with far-more-active and Western-oriented diplomatic initiatives, the changes during and after 1978 were fundamental.
